Quotations from Chairman Wolf

Dr. Michael Wolf is a 56-year-old man pincered between the horns of a quintessential dilemma. His bosses at the National Security Council have told him that they want him -- precisely as a government scientist with Above Top-Secret clearance -- to generate a controlled leakage of major amounts of secret information. That information is about UFO reality and extraterrestrial contact with humans including governmental involvement.

On the other hand, they have told him not to disclose too many government secrets nor too many details about his role inside ULTRA-classified projects. (He characterizes his current low-profile status as "sequestered"). And to complicate matters further, they have "erased" almost all his records such as the universities he attended, his degrees, and his record of government service as an independent contractor to the CIA, NSA, and NSC. Such measures are common for individuals working in Unacknowledged Special Access Programs where their bosses must maintain "plausible deniability" in case a "sensitive" worker decides to make unauthorized disclosures. Additionally, the national security oath that Wolf had to sign required him not to publish papers in scientific journals on his findings doing classified research.

As a result, Dr. Wolf can hardly prove he exists. But as a very brave person, Wolf has decided nevertheless to keep on revealing secrets until his superiors tell him to stop. America and the World are indeed fortunate that he has made that decision.

Dr. Wolf made the decision to reveal what he has learned about the visiting extraterrestrial cultures to the World "because we have a right to know". He is also motivated by the need to feel that he is making a contribution to Humanity for his wife, son, and unborn child who were assassinated by terrorist car-sabotage in an "accident" meant to kill him as well.

He admits that hindsight has caused him to reevaluate the importance of keeping secret all the things he worked on. His efforts to persuade his bosses to let him publish and speak met with some success. His book The Catchers of Heaven was approved to be published but only after he met their restriction that he write a forward stating that it was a "work of fiction". The book is filled with insider disclosures [ISBN# 0-8059-3907-5; available from the Daniel Wolf Foundation, 8417 Oak Park Drive, Suite A, Indianapolis, IN 46227, USA. (317) 881-2345.] Catchers of Heaven is a must reading for anyone interested in learning more about the extraterrestrial presence. Dr. Wolf currently is now working on a sequel Bright White Light Quartet, which will provide further information about his personal experience with the extraterrestrials, their communications, and their missions.
I have been authorized by Michael Wolf to share publicly in this article the disclosures he has made since Catchers was published. This report will not duplicate my earlier article on Dr. Wolf ["Official Within UFO-Secrecy Management Group Reveals Insider Secrets", Contact Forum, 5:5, Sept.-Oct., 1997, p. 22-23.] Also, these disclosures come from notes that I scribbled furiously as I tried to keep up with Dr. Wolf's machinegun pace of talking. Like many geniuses, he moves from topic-to-topic rapidly, not leaving an opportunity to get certain details. The reader will need to just make do for now with what was captured in my notes and forgive the sometimes-missing details that occur in that kind of communication. Any mistakes are mine.

I can well understand that some of the partial disclosures here leave the reader hungering for more detail. Such is the current state of affairs at this point in the Administration's guarded-disclosure/plausible-denial strategy -- a complex dance of opposites. Yet in unprecedented volume and depth, secrets are emerging from deep inside the most jealously-guarded and denied programs that the Government runs: its UFO programs, presented here courtesy of Dr. Wolf. But who is this man who discloses such tightly-held information?

Michael's ancestors were Russian Jews who emigrated to the U.S. and adopted the family name of Kruvant. Even as a child, Michael was no stranger to the classified world nor to encounters with an extraterrestrial. His father would take him with him to Andrews Air Force Base, while the father met with the Air Research and Development Council. And Michael was not the first in his family to experience contact with what he calls "my little Grey navigator, an undisguised blessing." Michael's father had had visits by Grey ETs too, and had spoken to Michael various times about those "Catchers of Heaven" as the father called them. And Michael's future son Daniel would also be an experiencer of personal extraterrestrial encounters.

By the time he was 12, Michael was taking characteristic initiative. He founded the Flying Saucer Research Association of New Jersey. At night, he tried communicating with his extraterrestrial friends using light signals. On December 24, 1954, one such effort was observed by George Hunt Williamson (whom Dr. Wolf identifies as having been a CIA operative.) In his book Road In The Sky, Williamson wrote that young Wolf in the year before his bar-mitzvah was transmitting messages to space intelligences using modulated light beams [p. 150]. Michael had telepathically requested that the ETs confirm receipt of his mental message by flying over his house in a certain direction. Wolf recalls, "5 minutes later, 2 flying saucers flew over my house heading North as I had requested."

The Intelligence community began to keep tabs on Wolf and eventually recruited him. Wolf recounts that the Government guided and paid for his impressive education because they saw he had a good relationship with the ETs and because he was the brightest student his teachers had seen.

Dr. Michael Wolf served as a Viet Nam-era as an Air Force Colonel, pilot, flight surgeon, and as an I-Corps intelligence officer for the CIA and NSA. He has earned an MD in Neurology, a Ph.D. in Theoretical Physics, a ScD in Computer Science, a JD in Law, an MS in electromagnetic influences on organisms, and a B.S. in biogenetics. Basically a Buddhist, Wolf also affirms the core truths in Islam, Christianity, Judaism, Native American spirituality, and other major spiritual traditions. His personal seminal koan is: "The truth is a lie which has yet to be revealed."

From 1972-1977, Dr. Wolf engaged in covert governmental research into extraterrestrial technology. "I met with extraterrestrial individuals every day in my work and shared living quarters with them" while doing research at extremely-classified underground Government research laboratories. He stated, "Zetas work in underground facilities as requested by the U.S. Government. The ETs are not breaking the U.S. Government-Zeta treaties. But the Government has broken treaties by mistreating ETs and trying to fire on UFOs."
Yet, there are some extraterrestrials being held captive. "Government scientists discovered that the ETs cannot dematerialize and escape if there is an extremely-powerful electromagnetic field surrounding them." [By way of corroboration, I have heard a government contractor describe 3-foot thick walls with many wires embedded and running through them at Haystack Air Force Laboratory.] Dr. Wolf commented, "Some in the Government want better diplomatic relations [with the ETs]. But others in the military want to shoot them down." This is ironic, Wolf said, "because SDI [Star Wars] technology was given to the Government by the ETs."

Laboratories where he worked include S4 (near the northeast corner of the Nevada Test Range) and nearby Area-51 (where he lived for a while); the Foreign Technology Division labs at Wright-Patterson Air Force Base (Dayton, Ohio); and the former Dulce Laboratory (near the New Mexico-Colorado border). Wolf also was aware that extraterrestrials work with government scientists at Haystack Air Force Laboratory, deep under Haystack Butte at Edwards Air Force Base, California. And when the subject was brought up of the complex at Indian Springs Auxiliary Air Field near the Nevada Test Site, Wolf quickly responded, "I can't say anything about that."

Since 1979, he has served as a scientific consultant to Presidents and the National Security Council on extraterrestrial matters. He is also a member of the NSC’s unacknowledged UFO information-management subcommittee (MJ-12’s panel of scientists). "The code names that I used were 'Griffin' and 'Nu Kappa Eta'." MJ-12 made Dr. Wolf the Chairman of Alphacom Team -- its premier extraterrestrial-matters group which also includes an Admiral from Naval Intelligence.

Wolf observes that the generals that he worked with feel impotent in the face of the overwhelming superiority of extraterrestrial technology and mental abilities. Because of those feelings of powerlessness and anathema to military officers, the generals had authorized an intense and extensive disinformation campaign (i.e., the UFO cover-up) to discourage any attempts by civilians to acquire even the limited understanding of extraterrestrials which the generals have managed to gain.

But a far most disturbing revelation from Dr. Wolf concerns the emergence of a renegade group within the military and intelligence agencies which comprise the UFO Cover-Up. Wolf has labeled this conspiratorial group of plotters "The Cabal". Made up of extremist, fundamentalist, xenophobic, racist, and paranoiac officers, the Cabal fears and hates extraterrestrials. And without any Presidential or Congressional authorization, the Cabal has commandeered Star Wars weaponry to shoot down UFOs, taken surviving extraterrestrials prisoner, and attempted to extract information by force. A high military officer (who is considered a "friendly" by the Cabal but who secretly dislikes it) passes on information about Cabal planning and activities to Dr. Wolf.

The Cabal controls some well-known UFO investigators. Wolf said that the director of one major U.S. civilian UFO organization "is up to his ass in the Cabal". And he added that another ufologist in Canada "gets paid for taking swipes at various UFO researchers". That ufologist's high reputation for UFO research is undeserved because he was getting a stream of leaks and tips from a well-placed official inside the intelligence community. Thus he knew precisely what UFO data to look and ask for. Now that ufologist is getting frequently upset because his source "inside" is no longer available (having recently died).

As a Presidential consultant, Dr. Wolf has visited Mr. Clinton in his White House private chambers and even dropped the remark that "Mr. and Mrs. Clinton sleep in the same bed" (thus scotching rumors to the contrary). When Mr. Clinton was visiting Hartford, Connecticut for a Presidential debate, the Presidential candidate took a side trip to consult with Dr. Wolf. And to this day, Wolf continues to provide advice to the President by encrypted phone and National Security Council courier. Possessing
some of the highest security clearances, this man is in an extremely-qualified position to know what the Government knows about UFOs and ETs. He wants to tell President Clinton everything. "But I can't. My [NSC] bosses won't let me."

Wolf says that "President Clinton does not know much about Area-51. And he does not know about S4" (the super-secret underground installation 13 miles south of Area 51 at Papoose Lake, where Dr. Wolf did some of his research)." He added, "The President has 'Above Top-Secret' and 'Need-To-Know' clearances, but does not have the 'Umbra Ultra Top-Secret' clearance to have access to upper-level 'MAJIC [MJ-12]' secrets and 'Keystone' [ET research] documents."

Like many federal bureaucracies, MJ-12 has tripled in size. Wolf reports, "It now numbers 36 members including [former Secretary-of-State] Henry Kissinger and ["father of the hydrogen bomb"] Edward Teller. MJ-12 meets at various confidential locations including the Battelle Memorial Institute [at Columbus, Ohio]." As an aside, Dr. Wolf confirmed that it was Dr. Edward Teller who recommended physicist Robert Lazar for his position at the secret S4 government base south of Area-51 where Lazar helped on back-engineering the propulsion systems of extraterrestrial spacecraft. [StealthSkater note: I can affirm the physical existence of Battelle (but not the role alluded to here) as I was once offered a job at a F100 engine test facility at WPAF operated by Battelle. During my interview, I learned that among other inventions, Battelle scientists invented the photocopy process which led to the Xerox Corporation. I was told that "their charter does not permit them to advertise publicly", even though I saw the job announcement in a local newspaper classifieds.]

When I asked who was 'MJ-1' (the head of the MJ-12 subcommittee), Dr. Wolf declined to identify that person. He did say, "MJ-1 answers to no one -- not even the President!" When I offered the surmise that Michael Wolf himself was yet another MJ-12 member, he hurriedly pointed out that he "could not disclose such a thing." And when I proposed that a notable scientist with a government background residing in Arizona was yet another MJ-12 member, Wolf responded with an uncharacteristic silence -- which I took to mean that he did not contradict that identification.

Michael Wolf has formed acquaintanceships with renown top scientists working on cutting-edge science. One such scientist is Dr. Hal Puthoff, whose research includes Zero-Point Energy which may replace petroleum to provide a clean source of the World's power. Wolf worked on remote-viewing research for the government at the same time that Puthoff was doing so at Stanford Research Institute. Darrell McMillan (of the Union of Concerned Scientists) is another scientist Wolf says he knows as is Stephen Hawking (the British theoretical astrophysicist).

Dr. Wolf asked me if I had seen the recent movie "Peacemaker". When I replied that I had, he said, "The women in that movie was based on a real person I worked with -- Dr. Jessica Stern of the National Security Council." And of course, he has met Edward Teller. Wolf characterized Teller as "a nuclear humbug", referring to Teller's deception of making a presentation to President Reagan about an X-ray laser Star Wars weapon as almost operational, when in fact the system had never been tested and was subsequently discarded as impossible by other Lawrence Livermore Laboratory scientists.

Another UFO notable with whom Wolf is familiar is Admiral Bobby Ray Inman, former head of NSA and currently chairman of Science Applications International Corporation. SAIC was identified by USAF Colonel Steve Wilson as the company which makes antigravity engines for U.S.-copycat UFOs. When I commented to Dr. Wolf that USAF Colonel Wilson had identified Inman as also in charge of Decision Science Applications Inc. (DSA1) (made up of the heads of corporations involved in classified military weapons development based on ET technology), Wolf commented that "Inman
doesn't know as much as the UFO community thinks he does. He doesn't know everything that DSAI is up to."

Wolf also verified that the former head of the Air Force Special Forces' Project Pounce [UFO retrievals unit] Colonel Steve Wilson and Air Force Technical Sergeant/NSA analyst Dan Sherman (assigned to an NSA unit conducting telepathic communications with the ETs) are who they say they are. [StealthSkater note: more on these at doc pdf url and doc pdf url]

Dr. Wolf provided a revisionist history about the beginning of the modern UFO era. "The first UFO came down in 1941 into the ocean west of San Diego and was retrieved by the Navy." The Navy has held a leadership position in UFO matters ever since. A more famous UFO crash followed in 1947, northwest of Roswell, New Mexico, and was retrieved by the Army Air Corps as reported by Colonel Corso in his book The Day After Roswell. Dr. Wolf confirms the truth of Corso's disclosures and added that LED (light-emitting diodes) and superconductivity are among the technologies which came from Roswell.

The U.S. was in possession of a Grey (dubbed "EBE" - Extraterrestrial Biological Entity) from 1948 until he died in 1953. Government scientists first communicated with him using pictographs. About Corso's book's alien-threat tone, Wolf commented that "it was co-author William Birnes who did the anti-alien gloss on Corso's manuscript" and that Colonel Corso did not personally view the extraterrestrials as enemy invaders.

Within months of the Roswell UFO crash, the Army Air Corps became the Air Force; the National Security Act was passed (partly to deal with the extraordinary secrecy that the Administration felt UFOs required); and the CIA was created.

He personally pioneered a mental-expansion process that he called "the Gateway Treatment", which "allows utilization of a vastly-increased percentage of the brain in order for humans to mentally engage the extraterrestrials in full telepathic mental exchange." The Treatment involves "a way of opening the brain up -- a way to stimulate the neurons. It allows billions of synapses to form."

Another project that Wolf was involved in was subatomic-particle physics research. Discoveries by Wolf were "utilized by my [Ph.D. dissertation-advising] professor to develop the neutral particle-beam weapon for the Star Wars program."

Drawing on information from his work in genetics research, Dr. Wolf revealed that the entire human genome has been mapped secretly by Government scientists. (This contradicts current Government press releases which describe the completion date as early in the next century.) He says that he has found an extraterrestrial marker gene in some humans' genetic samples. Other humans do not have these ET marker genes. He went on to say, "I have found non-coding [extraterrestrial] genetic sequence genes in my own genetic material -- more than the In-Betweens have. [The "In-Betweens" is Wolf's term for humans with hybrid ET-human genetics, due to ET intervention with their parents' reproductive material before the human was born.] Wolf revealed that he has been around a research project where government scientists created human-extraterrestrial hybrids, attempting to replicate ET genetic engineering. [StealthSkater note: the classic British sci-fi movie "5 Million Years to Earth" used this theme that some humans had Martian genes in them.]

He explained the harvesting of tissue from so-called cattle mutilations "is to prepare organelles to adapt to human bodies, to filter out particulates that are killing us as we pollute our planet." He said, "The 'Betweens'(human-ET hybrids) will help us and will bring the organelles."
The ETs have other concerns, too. They discussed God and Death with Wolf. And they pointed out that all worlds are connected. "One Hiroshima atomic bomb can affect millions of cultures in the Galaxy." And they told him, "Thought is energy. It doesn't stop at a galactic 'barrier' and is received on other worlds." Because of what he learned, Wolf stated, "We are at a crossroads. The issue is to give a viable future to our children." He notes, "Humans are beginning to change, to evolve, and are looking for spiritual roots. There is more to God than people get in church."

A 4th ultra-secret project (mentioned in Wolf's book) was a Department-of-Defense project having to do with cloning a human being in order to create the perfect soldier who would obey orders without question. A General "Bunting" was in charge of that project. The clone turned out to have been born with ethical thinking and intuitively knew that Life was sacred. When the clone disobeyed a test order to kill an innocent dog, Wolf says that "the project officer ordered the clone 'terminated'. It was my judgment that the clone had a soul. So instead, I blew up the building [containing the clone project]" and surreptitiously allowed the clone to escape.

Naturally, Wolf keeps aware of significant individuals and developments within the civilian UFO-investigation community. One such figure is former Army Command Sergeant-Major Robert Dean, who was assigned to NATO Headquarters in the 1960s. There, Dean read NATO's secret "Assessment" of extraterrestrials. Wolf states that he "has seen that same 'Assessment'." Dr. Wolf also revealed that "the NSA and CIA regularly provide the members of MJ-12 with tapes of major meetings of civilian UFO groups" (for example, MUFON conferences). Some other notable UFO investigators who have talked with Dr. Wolf include Robert Bletchman, James Courant, Linda Moulton Howe, William Hamilton, Michael Hesemann, and Dr. Steven Greer. [StealthSkater note: refer to doc pdf URI ]

Some years ago, documents were leaked purporting to constitute a 'Presidential Briefing' for Jimmy Carter on extraterrestrial matters. Dr. Wolf affirmed that the information contained therein "is substantially true. But one page was missing from the leaked set. That page describes an individual of joint ET-human heritage, who emerged 2000 years ago to try to end human violence." When I proposed that the page was referring to Jesus, Wolf confirmed that identification.

Dr. Wolf describes various extraterrestrial races. "One race has orange skin, very large heads, large dark eyes with no irises or whites, and 6-fingered hands. During dissection, their brains have been found to have 4 brain lobes, different optic orbs and nerves, and a sponge-like digestive system. ET brains are more developed and connected and have no corpus callosum." He also described a race dubbed the "Semitics" -- of average height and a generally human-like appearance except for their very large hooked nose. "This was the race which landed at Holloman Air Force Base, New Mexico in the 1960s and conversed with some generals there." Wolf also described a very human-appearing race called the "Nordics". He said, "The Semitics and Nordics come from Altair 4 and 5 and from the Pleiades."

He noted, "The extraterrestrials eat vegetation and mushroom and have different requirements. They absorb energy from the air and [certain] particulates. They don't absorb enough water to need to void; they process thoroughly." Wolf said that "cattle mutilations" tissue harvesting is not related to cloning, but rather is done to acquire nutrients for the hybrid fetuses that the ETs create. Dr. Wolf noted that embryonic fluid contains an anti-rejection factor. He is aware that not all cattle tissue harvesting is done by extraterrestrials 00 some is done by Special Forces teams.

Crop circles "were originated by extraterrestrials and then badly copied by the military, using Strategic Defense Initiative weapons emitting a laser pulsed beam." Wolf noted that "with crop circles made by ETs, the plants were still live and grew [after being bent into pictographic patterns.] With SDI-
weapon crop circles, the plants die. These SDI weapons are operated from a secret base in the Himalayas."

Concerning extraterrestrial contact, Dr. Wolf stated that the ET race commonly referred to as Zeta Reticulans (or Greys) have engaged in diplomatic negotiations with the U.S. Government. When I asked him which extraterrestrial races he worked with in government labs, he pointed out that the 2 illustrations on the covers of his book Catchers of Heaven are actual photographs of extraterrestrials taken by an Admiral friend of his. The ET on the front cover is named K*L*T (which Wolf phoneticizes to Kolta for convenience) and is the extraterrestrial with whom Wolf has met most frequently. It is a Zeta Grey. The ET on the back cover is a human-appearing Pleiadean named Anon [Prince] Sa Ra.

In the course of his close association with extraterrestrials in scientific laboratories, Dr. Wolf was given a piece of extraterrestrial alloy by them. This alloy looked like melted silicon and has peculiar energy properties. It is 99.99% silicon and .01% non-Earth isotopes. When he placed it in water and drank the water, it provided healthful benefits.

Wolf is convinced that it was psychotronic directed-energy devices which were directed by rogue elements within the UFO Cover-Up organization at certain UFO researchers pushing very strongly to end the UFO Cover-Up. These include the Director of Committee for the Study of Extraterrestrial Intelligence (CSETI) Steven Greer, MD; his principal assistant Shari Adamiak; Congressman Steve Schiff, who demanded UFO documents from the Air Force; and USAF Col. Steve Wilson, who revealed his heading Project Pounce (the UFO retrieval unit). Already Colonel Wilson and Shari Adamiak have died of their cancers. And Congressman Schiff has had to terminate his political career. Now Dr. Wolf has received a medical report which suggests a possibility that he may have cancer. It is not yet clear whether he will still have access to a certain extraterrestrial honey-like substance, which he took several years ago for his metastasized colon cancer and which brought that episode into remission.

Concerning the famous 1947 Roswell UFO crash, Wolf states that "It was actual 2 UFOs which collided in midair" during an intense electrical storm. "One contained Orange ETs, and the other Greys." One crash-landed near Corona, northwest of Roswell. The other crashed onto the Plains of San Agustin, over 100 miles to the west. Army Intelligence units soon secured both sites and removed the craft and their mostly-dead ET crews.

Another later ET-military encounter recounted by Dr. Wolf was similarly grim. "An extraterrestrial on the ground had traveled from Fort Dix, New Jersey to [adjacent] McGuire Air Force Base, where he died on the tarmac."

Michael Wolf worked in several projects, making discoveries with which in hindsight he now regrets being involved. He particularly had misgivings after he saw what applications these discoveries were put to. He says he now "has immense qualms about those misapplications", repudiates them, and is repentant for them.

When Dr. Wolf engaged in Government-sponsored studies for his MD degree at McGill University, he engaged in research on neurotransmitters and their role in mental functioning and control. Among the secret projects that Dr. Wolf worked on was remote-viewing (a military/Intelligence term for applied clairvoyance). He said, "99 percent of telepathy and remote-viewing research is classified."
Wolf went far beyond the crude Army Intelligence psi experiments of General Bert Stubblebine, Col. John Alexander, and Major Ed Dames. He developed memory-extraction and memory-"capping" [suppression] techniques. Some of his findings "were later incorporated into the infamous MK-ULTRA mind-control projects of the CIA and used on captured KGB agents [to extract information]." He also worked in research on dolphins, which he called "a highly-intelligent alien lifeform on this planet."

While Dr. Wolf was studying at MIT for his Ph.D. in physics, he "discovered a new theory of wave-particle duality which led to the development of the neutral particle-beam Star Wars weapon." Because of these classified projects, his NSC bosses forbade him to identify his dissertation advisor professors. MIT and McGill are forbidden to acknowledge that he studied there.

Having access to NSA and CIA information, Dr. Wolf revealed some secrets that he was not involved in. One -- among the ugliest aspects of the Viet Nam War -- was the U.S.'s Project Arc Light -- "the bombing of already shot-down B-52s with Hellfire incendiary bombs, totally incinerating any survivor crewmen in order to destroy the secret documents carried on the B-52s." President Bill Clinton told Michael Wolf that he learned about Project Arc Light while a student in England, and that it had deepened his opposition to the Viet Nam War.

Wolf also learned that the assassination of President Kennedy involved multiple parties and interests. "Many Cuban expatriates hated Kennedy for the Bay of Pigs invasion's failure. The Mafia hated JFK because of his brother's (Attorney-General Robert Kennedy) relentless prosecutions of high-level mobsters. Hard-liners in CIA hated Kennedy because he wanted to pull the U.S. out of an escalating war in Viet Nam and because he wanted the CIA to disclose UFO information."

Wolf disclosed that famed scientist "Albert Einstein had contact with extraterrestrial intelligence." And that a more recent understanding of Zero-Point Energy "has to do with a white-hole/black-hole scenario." The ETs told Wolf that the Void is filled with energy to be tapped. Wolf further stated that experiments by the U.S. Government using exotic technology "ripped holes in time." [StealthSkater note: this echoes the claims of Preston Nichols that the Montauk Project created "what would appear to be an irreversible time-loop" => doc pdf URL]

Wolf worked briefly on assignment to the Mossad [an Israeli intelligence organization]. He commented that "The Mossad has very good relationships with the Extraterrestrials."

Dr. Strecker's published research report identifying HIV/AIDS as caused by a manmade virus was correct according to Dr. Wolf. Furthermore, the Government has learned that viruses are crystalline in structure and that the correct frequency can destroy them. [StealthSkater note: some claims of virus-killing and cellular regenerations (including Priore, Rife, and Reich) by RF have been archived at doc pdf URL]

Wolf also reported "President Clinton has had a briefing on the Aurora [SR-33A] spaceplane" which operates out of Area-51. The Aurora "runs on liquid methane and has antigravity on board" [information identical to what retired Air Force Colonel Donald Ware also passed on to this writer from a three-star general.] Wolf says that the Aurora goes the Stealth planes one better. "It carries an electromagnetic-pulse weapons system on board which can knock out tracking radar." He also disclosed "It can go to the Moon!" And he added a tantalizing further hint. "The U.S. has 'something' on Mars [besides the Rover]."

Wolf also revealed that the U.S. Government is working on prototypes of extraterrestrial antigravity discs. He says that the extraterrestrials traverse the Galaxy by manipulating space and time to pull their
destination towards them. "Time is reduced to zero, and acceleration is increased to infinity." And that the military are experimenting on having pilots use their mind to guide an advanced plane. Some government scientists found that "some UFOs are living conveyances and can divide and re-form." Those "living conveyances" are apparently also responsive to thought commands. [StealthSkater note: The former echoes remarks made by Bob Lazar => doc pdf URL. The latter may involve conjectures made by Phil Corso doc pdf URL and Tom Bearden doc pdf URL.]

Wolf disclosed an incident on the Carribean island of Puerto Rico that occurred during the Bush (Sr.) Administration. "A UFO piloted by extraterrestrials -- with F-16 fighter escort overhead -- landed in a Puerto Rican community in 1990. The purpose of this exercise was to test the public reaction of a select portion of the American people." (Puerto Rico is U.S. territory.) The mayor of the community contacted President Bush, excitedly told the President that "extraterrestrials got out of the ship and walked around," and asked Bush what he should say to his citizens. Bush referred the inquiry to Dr. Wolf at MJ-12 to formulate a response for the mayor.

Concerning the U.S. Government's slow pace of disclosure about UFO reality, Wolf commented, "The Government is doing a balancing act because if Free [Zero-Point] Energy and all the ET technology come out all at once, it'd hurt the stockholders [in obsolescent industries]. The multinational corporations don't want to lose their power." The last time that Wolf heard a timetable from the Government for frank disclosure of UFO reality was somewhere in the period of 2001-2005.

Dr. Michael Wolf is -- for all his education and unique career -- a generally modest man. He lives alone in a simple urban apartment. Wolf still grieves over the tragic deaths of a wife and son Daniel, lost years ago. Facing twin terminal illnesses of spinal degeneration and a wasting disease, he is dedicated now to trying to help create a better world for the children.

To this end, he has directed that all royalties from his books go to the "Daniel Wolf Memorial Foundation For Children, Inc.", a nonprofit 501(c)(3) organization. He says, "The children are the future." He looks forward to when the secrecy about extraterrestrial contact with Earth is stripped away so that we, our children, and our grandchildren can move forward to the next phase of our history -- now Cosmic in scale.
