Acknowledgements

There are many people who have contributed in a very positive way to the trajectory of my thinking during the five year gestation of this project. In particular, I wish to thank Dr Lisa Dethridge and Antoni Jach of RMIT University for their tireless engagement and determined questioning; John Storey for his early encouragement; Alex Miller for his critical reading; Wendy Owen for her astute editing; Professor Nancy Shawcross at the University of Pennsylvania for her generous correspondence; and my colleagues in the School of Creative Arts and Communication at Deakin University for their patience and support.

For teaching me stillness and the art of breathing, I am grateful to Sri Bala Ratnam. I am also indebted to all those I have interviewed and/or photographed in various parts of the world who have challenged me to think about what it means to measure time, construct an image and craft a story. Above all, I want to thank Teresa for her creative thinking and for helping me not only to see but also to travel beyond the frame.

The passage from Pushkin’s fairy tales on page 75 is taken from:  

Whatever it grants to vision and whatever its manner, a photograph is always invisible; it is not it that we see.

Though Peter Abrahams was a South African and not native speaker of English, he used a lot of different stylistic devices and emotive means in his work. While reading the book, a reader comes across to various stylistic devices which helped to make the novel more colourful. The language of the novel is simple and understandable. The author used the stylistic devices in picturing the nature, in the description of village, the characters of the novel. He didn’t use them much in the speech of characters as it would be unconvincing to the reader. References: Galperin I. R. Stylistics. Moscow:Highe The Book of Abraham is a historical novel written by Marek Halter that documents the history (both factual and fictional) of his Jewish family. Although the early parts of the book are fictional, those parts taking place after the fifteenth century factually document the history of Marek Halter’s family.
