Preface xix

Chapter 1 Currency Exchange Rates 1
Learning Outcomes 1
Currency Exchange Rate Quotations 3
**Direct and Indirect Quotations 4**
Cross-Rate Calculations 5
Forex Market and Quotation Conventions 6
Bid-Ask (Offer) Quotes and Spreads 8
Cross-Rate Calculations with Bid-Ask Spreads 10
No-Arbitrage Conditions with Exchange Rates 12
Forward Quotes 14
Interest Rate Parity: The Forward Discount and the Interest Rate Differential 15
Forward Exchange Rate Calculations with Bid-Ask Spreads 20
Summary 22
Problems 25

Chapter 2 Foreign Exchange Parity Relations
Learning Outcomes 27
Foreign Exchange Fundamentals 28
Supply and Demand for Foreign Exchange 28
Balance of Payments 30
Current Account Deficits and Financial Account Surpluses 31
Factors Affecting the Financial Account 33
Government Policies: Monetary and Fiscal 35
Exchange Rate Regimes 36
International Parity Relations 38
Some Definitions 39
Interest Rate Parity 40
Purchasing Power Parity: The Exchange Rate and the Inflation Differential 40
International Fisher Relation: The Interest Rate and Expected Inflation Rate Differentials 42
Chapter 3  Foreign Exchange Determination and Forecasting  75

Learning Outcomes  75
International Monetary Arrangements  76
A Historical Perspective  76
The Empirical Evidence  83
Interest Rate Parity  83
International Fisher Relation  84
Purchasing Power Parity  85
Foreign Exchange Expectations  88
Practical Implications  90
Exchange Rate Forecasting  91
Is the Market Efficient and Rational?  92
The Econometric Approach  94
Technical Analysis  95
Central Bank Intervention  97
The Use and Performance of Forecasts  99
Summary  102
Problems  103
Bibliography  106

Chapter 3 Appendix: Statistical Supplements on Forecasting Asset Returns
Some Notations  109
Traditional Statistical Models with Constant Moments  110
Traditional Statistical Models with Time-Varying Moments  111
Nontraditional Models  113
Data Mining, Data Snooping and Model Mining  115
Chapter 4  International Asset Pricing  117
Learning Outcomes  117
International Market Efficiency  118
Asset Pricing Theory  121
   The Domestic Capital Asset Pricing Model  121
   Asset Returns and Exchange Rate Movements  123
   The Domestic CAPM Extended to the International Context  125
International CAPM  126
   Market Imperfections and Segmentation  135
Practical Implications  136
   A Global Approach to Equilibrium Pricing  136
   Estimating Currency Exposures  139
   Tests of the ICAPM  146
Summary  148
Problems  151
Bibliography  155

Chapter 5  Equity: Markets and Instruments  157
Learning Outcomes  157
Market Differences: A Historical Perspective  158
   Historical Differences in Market Organization  159
   Historical Differences in Trading Procedures  159
   Automation on the Major Stock Exchanges  161
Some Statistics  167
   Market Size  167
   Liquidity  170
   Concentration  171
Some Practical Aspects  171
   Tax Aspects  172
   Stock Market Indexes  172
   Information  176
Execution Costs  177
   Components of Execution Costs  177
   Estimation and Uses of Execution Costs  179
   Some Approaches to Reducing Execution Costs  182
Investing in Foreign Shares Listed at Home  185
   Global Shares and American Depositary Receipts  185
   Motivation for Multiple Listing  186
   Foreign Listing and ADRs  186
   Closed-End Country Funds  189
   Open-End Funds  193
   Exchange Traded Funds  193
Chapter 6  Equity: Concepts and Techniques  203

Learning Outcomes  203
Approaching International Analysis  204
The Information Problem  205
A Vision of the World  206
Differences in National Accounting Standards  207
Historical Setting  208
International Harmonization of Accounting Practices  209
Differences in Global Standards  212
The Effects of Accounting Principles on Earnings and Stock Prices  215
Global Industry Analysis  217
Country Analysis  217
Industry Analysis: Return Expectation Elements  222
Industry Analysis: Risk Elements  227
Equity Analysis  232
Global Risk Factors in Security Returns  242
Risk-Factor Model: Industry and Country Factors  246
Other Risk Factors: Styles  247
Other Risk Factors: Macroeconomic  247
Practical Use of Factor Models  249
Summary  251
Problems  252
Bibliography  257

Chapter 7  Global Bond Investing  256

Learning Outcomes  256
The Global Bond Market  260
The Various Segments  260
World Market Size  262
Bond Indexes  263
The International Bond Market  264
Emerging Markets and Brady Bonds  269
Major Differences Among Bond Markets  271
Types of Investments  271
Quotations, Day Count, and Frequency of Coupons  272
Legal and Fiscal Aspects  274
A Refresher on Bond Valuation  276
Zero-Coupon Bonds  276
Bond with Coupons  278
Chapter 9  The Case for International Diversification  385

Learning Outcomes  385
The Traditional Case for International Diversification  588
   Risk Reduction through Attractive Correlations  388
   Portfolio Return Performance  398
   Currency Risk Not a Barrier to International Investment  406
The Case against International Diversification  407
   Increase in Correlations  407
   Past Performance Is a Good Indicator of
   Future Performance  411
   Barriers to International Investments  411
The Case for International Diversification Revisited  415
   Pitfalls in Estimating Correlation During Volatile Periods  415
   Expanded Investment Universe and Performance
   Opportunities  417
   Global Investing Rather Than International Diversification  418
The Case for Emerging Markets  421
   The Basic Case  421
   Volatility, Correlations, and Currency Risk  422
   Portfolio Return Performance  423
   Investability of Emerging Markets  424
   Segmentation versus Integration Issue  425
Summary  425
Problems  427
Bibliography  430

Chapter 10  Derivatives: Risk Management with Speculation, Hedging, and Risk Transfer  433

Learning Outcomes  433
Forward and Futures  434
Chapter 11  Currency Risk Management  485
Learning Outcomes  485
Hedging with Futures or Forward Currency Contracts  486
   The Basic Approach: Hedging the Principal  487
   Minimum-Variance Hedge Ratio  490
   The Influence of the Basis  494
   Implementing Hedging Strategies  496
   Hedging Multiple Currencies  497
Insuring and Hedging with Options  499
   Insuring with Options  499
   Dynamic Hedging with Options  500
   Implementation  504
Other Methods for Managing Currency Exposure  505
Strategic and Tactical Currency Management  509
   Strategic Hedge Ratio  509
   Currency Overlay  512
   Currencies as an Asset Class  514
Summary  515
Problems  516
Bibliography  521

Chapter 12  Global Performance Evaluation
Learning Outcomes  523
The Basics  524
   Principles and Objectives  524
   Calculating a Rate of Return  527
Chapter 13  Structuring the Global Investment Process  581

Learning Outcomes  581
A Tour of the Global Investment Industry  582
Investors  582
Investment Managers  584
Brokers  585
Consultants and Advisers  585
Custodians  587
Global Investment Philosophies  587
The Passive Approach  587
The Active Approach  589
Balanced or Specialized  590
Industry or Country Approach  591
Top-Down or Bottom-Up  591
Style Management  592
Currency  593
Quantitative or Subjective  594
The Investment Policy Statement  595
Capital Market Expectations  600
Defining Asset Classes  603
Long-Term Capital Market Expectations: Historical Returns  603
Long-Term Capital Market Expectations: Forward-Looking Returns  605
Short-Term Capital Market Expectations  608
Global Asset Allocation: From Strategic to Tactical 610

Strategic Asset Allocation 610
Tactical Asset Allocation 614

Global Asset Allocation: Structuring and Quantifying the Process 615

Research and Market Analysis 617
Asset Allocation Optimization 619
Portfolio Construction 620
Performance and Risk Control 620

Summary 624

Problems 625

Bibliography 627

Glossary 629
Index 643
Global Investment Holdings became the leading independent brokerage and investment banking firm in Turkey soon after its establishment in 1990. The Company has played a vital role in the development of Turkish capital markets by paving the way for many of the country’s leading businesses to meet international businesses for the first time. The Company transformed into an investment portfolio company in late 2004 drawing on its appetite for growing investments and its extensive investment banking experience.
Investor Confidence: Organizations that adhere to investment performance standards help assure investors and beneficiaries that the firm’s and the asset owner’s investment performance is complete and fairly presented. Global Investment Performance Standards (GIPS®) for Firms. Each of the four reporting sections is self-contained and includes requirements and recommendations relevant to that particular report. Global Investment Holdings became the leading independent brokerage and investment banking firm in Turkey soon after its establishment in 1990. The Company has played a vital role in the development of Turkish capital markets by paving the way for many of the country’s leading businesses to meet international businesses for the first time.
