Publishing is the activity of making information, literature, music, software and other content available to the public for sale or for free. Traditionally, the term refers to the distribution of printed works, such as books, newspapers, and magazines. With the advent of digital information systems, the scope has expanded to include electronic publishing such as ebooks, academic journals, micropublishing, websites, blogs, video game publishing, and the like. Book, published work of literature or scholarship; the term has been defined by UNESCO for statistical purposes as a non-periodical printed publication of at least 49 pages excluding covers, but no strict definition satisfactorily covers the variety of publications so identified. Although the...
